

# ChargePoint Express Family—CPE200

Power Up Your Business With Express Charging

With ChargePoint Express, our newest generation of DC fast chargers, property owners can attract new customers to their business by providing them a short recharging stop before getting back on the road and on to their destination.

## Speed

- + Charges at a maximum of 200 miles of range per hour (RPH)
- + 50kW output

## Connectors

- + CHAdeMO and SAE Combo
- + Can charge all cars equipped with DC fast charging (Tesla with an adapter)

## Form Factor

- + Only 13 inches deep and one-third the weight of other dual port DC stations
- + Small size provides flexibility on installation locations
- + Low shipping and installation costs because of the size and weight

## Low Maintenance Costs

- + The only liquid cooled DC fast charger on the market alleviating the need for periodic air filter inspections and replacements
- + Coolant fluid will last up to 10 years

## Reliability

- + Critical electronics components are environmentally sealed maintaining reliable operation
- + Operates over a wide temperature range of -31F to 131F (-35C to 55C)
- + With remote diagnostic capabilities, the ChargePoint Support team can identify problems before they impact charging, reducing down time

## Service Products and Support

If you don't have the time to set up and manage your charging stations, the ChargePoint Services and Support team can take care of everything for you.

- + ChargePoint Assure is an industry first, one-year parts and on-site labor warranty at no extra cost and you can extend your coverage for a total of 3 years
- + 24/7 driver support in English, Spanish and French
- + Station Activation and Configuration Service for your initial setup
- + Station Management Service for daily management of your stations by the ChargePoint team

## Energy Measurement and Management

- + Real-time energy measurement
- + 15 minute interval recording
- + Time of day pricing
- + Load shed by percentage of running average or to fixed power output
- + Instantaneous power, miles of range added and State of Charge available via the ChargePoint mobile app

## Promote Your Brand and Business

Having your stations installed in a visible location makes a bold statement about your business' commitment to sustainability and shows that you care about your customers. CPE200 stations are built for customization so you can conveniently promote your brand as well.

### With custom signage you can:

- + Increase brand recognition
- + Attract EV drivers by making sure your stations are highly visible
- + Ensure EV charging installations are consistent with the look and feel of your brand
