

Power Up with Nothing Down

Introducing the ChargePoint® Net+ Purchase Plan

Attract and satisfy employees and customers for just dollars a day, with no upfront cost.

ChargePoint, creator of the world's largest and most open EV network, has revolutionized EV charging, again. Introducing the Net+ Purchase Plan, the first all-inclusive purchase program designed to make owning EV charging stations easier and more affordable than ever.

Net+ Advantage

- + No money down and zero upfront cost
- + Includes installation, service, and warranty
- + Preferential interest rate for qualified customers
- + Purchase may qualify for 2013 30% federal tax credit*
- + Smooth payments aligned to your usage
- + End of lease no-cost buyout
- + 3-7 year lease terms
- + Flexible payment plans

We Are ChargePoint

- + 65%+ market share
- + 13,500+ charging spots
- + 3,000,000+ charging sessions

Why are leading cities and companies from California to New York offering EV charging for their employees or customers?

Whatever your business, offering EV charging is good for business.

Workplace

- + Give your employees up to a 5% raise by helping them save thousands of dollars on gas
- + Drive productivity by helping employees get out of traffic and into the HOV lane
- + Advance your sustainability goals and improve corporate image

Retailers

- + Attract new customers who stay longer and spend more
- + Enhance your sustainability programs and improve your image with customers

Municipalities

- + Attract residents and visitors to local retail
- + Drive revenue for your city and improve its image with residents and visitors alike
